WORK EXPERIENCE

Deloitte

Luxembourg

Data Scientist/Python Developer – AI & GenAI Solutions

09/2024 - Present

- Built an LLM output evaluation system with PydanticAI, defining structured validation criteria to assess GenAI responses for correctness and consistency in production reporting workflows.
- Engineered backend and frontend features for a financial engineering web application using Python, improving usability and scalability
- Developed a clustering algorithm in scikit-learn that increased coverage of counterparties by 21%, improving tool reliability and business insights
- Collaborated with stakeholders to translate financial requirements into technical solutions
- Improved the performance of SQL queries, reducing execution time from 38 seconds to 1 second

SDG Group

Milan, Italy

Data Engineer – Supply Chain Intelligence

02/2024 – 07/2024

- Designed, optimized, and maintained relational databases to support large-scale data analytics.
- Built and automated ETL workflows using SQL, Python, Matillion, and dbt, improving data processing efficiency and accuracy.
- Integrated data pipelines into Snowflake and supported reporting systems, enabling clients to streamline supply chain decision-making.

EDUCATION

Bocconi University

Milan, Italy

Master of Science in Econometrics

- **Thesis:** Predictive Modeling of Stock Prices using Time Series Neural Networks, LSTM and ARIMA
- Member of **Bocconi Students for Machine Learning**
- **Final grade:** 110/110 cum Laude
- **Coursework:** Data Mining and Machine Learning for Business, Econometrics, Time series analysis, Mathematical Statistics, Advanced Mathematics, Python for Data Analysis and Data Science
- **Visiting student** at ICRIOS Research Center

Erasmus Universiteit

Rotterdam, Netherlands

Exchange Program

- **Coursework:** Applied Microeconometrics, Empirical Methods for Finance
- Member of **FAECTOR Econometrics Association**

Bocconi University

Milan, Italy

Bachelor of Science in Economics and Finance

- **Thesis:** Fibonacci sequence and Elliott Wave Theory. Theoretical foundations and application to the metal commodities market
- **Final grade:** 110/110 cum Laude

TECHNICAL & BUSINESS SKILLS

Programming & Backend: Python, SQL, FastAPI, Pydantic

Machine Learning & MLOps: Pytorch, MLflow

Data Engineering & Databases: PostgreSQL, Snowflake, dbt, Matillion, Apache Airflow

Testing, DevOps & Deployment: pytest, Git, GitHub Actions, Docker, Azure DevOps, Jira

Business Analysis: Requirements gathering, stakeholders management

CERTIFICATIONS, ACTIVITIES & INTERESTS

Certifications: Databricks Data Engineer Associate, Databricks Data Analyst Associate, Azure AZ-900

Languages: Native in **Italian**, Fluent in **English** (C1); Fluent in **French** (B2)

Interests: Reading | Playing the piano and the guitar | Beach Volleyball
